

# Feminine Hygiene Kit

In the United States alone, there are over 400,000 girls that are homeless and without access to basic feminine hygiene items that other girls in their school take for granted. Young girls without access to these items are less likely to attend school because of embarrassment and lack of self-esteem. By providing a discrete supply of personal care items, these girls will have one less thing to worry about and be able to focus on what is really important – an education!

With this in mind, Kits for Kidz™ provides a low-cost, assembled Feminine Hygiene Kit for girls. Each kit comes assembled inside of a sturdy, stylish, reusable, nylon tote bag (15" x 13" x 3") with a convenient shoulder strap. A sample kit is available upon request.
